

LEARN LOCAL.... ACT GLOBAL!

EnviroEdu presents fun, interactive, 'hands on' environmental education programs tailored to suit early childhood/kindergarten, through to primary and secondary school aged children.

EnviroEdu believes in 'grass roots' learning and is dedicated to promoting environmental, conservation and sustainability awareness. Our programs show-case Australia's amazing biodiversity, with a focus on our 'local environment' and 'threatened species'.

WHAT WE OFFER:

- Facilitation of inspiring environmental education programs and field excursions within the local area;
- 'Wildlife in the Classroom' – opportunities to get up close and personal with a diverse range of Australia's native and threatened species;
- Learning experiences and assessment tasks which complement learning outcomes from the Australian Curriculum and assist in schools reporting requirements;
- Flexibility to tailor programs to individual school and teaching requirements.

OUR VISION:

To empower students, teachers and the broader community to live more sustainably, protect our natural environment and conserve our unique native wildlife

**“Unless someone like you cares a whole awful lot,
nothing is going to get better, it’s not.”**

Excerpt from ‘The Lorax’ by Dr Seuss.

**“An understanding of the natural world and what’s in it is a
source of not only a great curiosity but great fulfilment”.**

Sir David Attenborough.
